

SUBARU

FORESTER

Drive into adventure.

Face new challenges. Explore the great outdoors. Do all the things you always wanted to do. It's easy with the Forester's tough and powerful look that triggers your desire for adventure. Enjoy all your outdoor adventures while keeping everyone happy, comfortable, and safe.

Go anywhere. Try anything.

The redesigned Forester offers comfort, safety, and versatility to support you through all your daily adventures—while encouraging you to go on new ones. With a bolder, more powerful SUV design and the capability to back it up, the Forester gives you the peace of mind from knowing everyone's enjoying their time.

Performance you can trust. Capability you can feel.

The Forester gives you total driving confidence with its fun-to-drive nature, responsive handling, and outstanding ride comfort. Balanced and stable around turns even with its SUV height, the Forester’s compact body is easily manoeuvrable and carefully engineered to reduce fatigue on extended adventures for an enjoyable driving experience for all. And with Symmetrical All-Wheel Drive and the improved X-MODE, you can reach your destination with comfort and peace of mind.

X-MODE and Hill Descent Control

Choose between [SNOW/DIRT] or [D.SNOW/MUD] for confident and secure driving on rough roads with the dual-function X-MODE. Instead of turning off at increased speeds, the improved system keeps your selected mode on standby to automatically restore it once you return to lower speeds, so you can focus on driving without having to keep turning it back on. Plus, Hill Descent Control helps maintain a controlled and constant speed even on slippery downhill, adding even more peace of mind to your drive.*1

SI-DRIVE

Select Intelligent Mode for balanced, smooth, and environmentally friendly performance, or Sport Mode for an immediate and linear torque-rich throttle response for sporty and smooth driving at any speed. What’s more, e-Active Shift Control provides motor assist when necessary during sporty driving for powerful acceleration.

High Ground Clearance

The Forester was designed for not only high SUV ground clearance, but also with careful consideration for approach, departure, and break-over angles. All have been optimised to help you conquer obstacles without sustaining damage or getting stuck.

*1 Driver is always responsible for safe and attentive driving. Effectiveness of Hill Descent Control depends on many factors such as vehicle maintenance, weather, tyre, and road conditions.
*2 When equipped with 18-inch wheels.

Plenty of space for all your memories.

An expanded cargo area, easier-to-use power rear gate*1, a cargo light, and upper cargo hooks*2 are just some of the things that make the Forester the most versatile and convenient yet. Supportive of even the most active lifestyle, Forester is ready to help you do all the things you love doing, and make each adventure more meaningful.

01 Cargo Area

The wide opening and square design make it easier to organise, load, and unload even large objects without need to tilt them. The backs of the 60/40-split folding rear seats have been optimised for a flat cargo floor that makes loading long items easy. Plus, the sides of the cargo area are made of easily wiped-clean, durable material on which dirt and scratches are hardly noticeable, so you can enjoy any outdoor activity with peace of mind.

02 Power Rear Gate*1

The power rear gate allows access to the cargo space with a single switch, even when your hands are full. The inner lock switch lets you conveniently close the rear gate and lock all doors at the same time.

03 Cargo Hooks

The 12V power supply, rear seat folding switch, and bag hooks are consolidated in the same area for ease of use. Cargo net hooks allow convenient luggage net use while two upper cargo hooks*2 allow more effective use of the tall cargo area when parked.

*1 Optional.

*2 Not for hanging heavy items. Loading capacity of each upper hook is 3kg. Please ask your authorised Subaru retailer for more details.

Feel connected, wherever you go.

Safely enjoy the conveniences of smartphone connectivity while on the go, with services such as Apple CarPlay*¹ and Android Auto*². Designed with both advanced functionality and ease of use in mind, the Forester provides you with advanced infotainment functions and intuitive controls. Combined with comfortable front seats that encourage a natural driving position, you'll feel right at home, no matter how far you go.

*¹ Apple CarPlay is a trademark of Apple Inc., registered in the U.S. and other countries.
 *² Android and Android Auto are trademarks of Google Inc.
 Apple CarPlay and/or Android Auto may not be available for all models and regions. Please contact your local authorised Subaru retailer for more details.
 Driver is always responsible for safe and attentive driving. Please refrain from operating the touchscreen while driving.

Apple CarPlay*¹ and Android Auto*²

Use today's most popular apps with Apple CarPlay*¹ and Android Auto*². Voice recognition capabilities allow hands-free use, keeping everybody safe while reducing distractions when you're on the road.

Multifunction Display

The 6.3-inch LCD multifunction display at the top of the instrument panel provides you and your passengers with useful information in an easy-to-understand view. When the navigation system is in use, it connects to the multifunction display and shows turn-by-turn information when approaching intersections or turns.

Comfort for everyone.

The Forester provides comfort to every passenger, in every seat. Its convenience begins even before you enter the vehicle, as the door openings are designed for easy seat access for anyone. The comfortable and spacious cabin, with conveniences like the seatback pockets and rear ventilation system, reduces unwanted road noise and vibrations so everyone can share quality time together on the road.

*³ Optional.

Centre Console Box

The centre console box compartment is large enough to store your electronic devices like small tablets. There's also a 12V power socket inside for your convenience.

Power Sunroof*³

The available inner-sliding sunroof's large opening provides a sense of spaciousness while leaving plenty of headroom for all passengers.

Trust What's Inside

Subaru's core technologies provide every Subaru with the performance, comfort, safety, and reliability that deliver enjoyment and peace of mind to every passenger.

01

SUBARU BOXER Engine

A boxer engine, or a horizontally opposed engine, is an engine configuration in which its pistons move toward each other in a horizontal direction. Subaru has been committed to the SUBARU BOXER engine for its many advantages over other engine types, providing durability and reliable performance in its vehicles.

Naturally Balanced

The engine's flat design is inherently rigid and self-balancing, generating less vibration than other engine types.

Increased Stability

The low centre of gravity and flat design give it better side-to-side stability than other engine types.

02

Symmetrical All-Wheel Drive (AWD)

Subaru's Symmetrical AWD distributes power to all wheels for better traction on wet and slippery roads. Laid out in a horizontally symmetrical plane, this system has a well-balanced low centre of gravity design for a more stable and safer ride.

03

Lineartronic + Active Torque Split AWD

Lineartronic adjusts to any ratio in its range for smooth and stepless gear changes that keep the engine in its most efficient range for efficient and smooth acceleration, driving performance and better fuel efficiency. It comes paired with Subaru's active torque split AWD system. Its default torque is well-balanced front to rear and adjusts in response to real-time traction conditions.

04

Subaru Global Platform

The Subaru Global Platform is the underlying platform that will underpin the next generation of Subaru vehicles. Enhancing all-around safety and performance, it goes beyond better performance to offer a driving feel you can only find in a Subaru. It's the future of Subaru—and delivers even more enjoyment and peace of mind to all drivers and passengers.

More Fun to Drive

More responsive handling allows you to steer the car just as intended for better hazard avoidance. Even with its high ground clearance, the Forester securely hugs the road around turns, resulting in a car that's safer and more fun to drive, even on long trips.

Ride Comfort

Improvements in chassis rigidity, suspension, and stabilisers efficiently absorb shocks from the road and hide uneven surfaces, allowing more comfort and less fatigue on long rides.

Comfortable Cabin Space

Unpleasant vibrations and noise have been reduced to ensure all passengers enjoy the ride. Suspension improvements and a highly rigid chassis allow for a comfortable cabin interior for all.

Subaru All-Around Safety

At Subaru, safety comes first. That’s why Subaru has been fine-tuning, testing, and retesting its advanced safety features. With the latest in collision protection/avoidance systems and core technologies like Subaru Global Platform and Symmetrical AWD, Subaru continues its ‘people first’ policy by improving All-Around Safety and envisions an accident-free future.

The Forester achieved the maximum 5-star overall rating in the 2019 Euro NCAP safety performance tests.*3

PRIMARY
Visibility in all directions
Easily check your surroundings. Optimal driving position, window heights, and carefully arranged pillars provide excellent visibility in all directions to reduce blind spots.

ACTIVE
Vehicle Dynamics Control System
Adjusts AWD torque distribution, engine output, and brakes at each wheel to help keep the vehicle on course when making turns.

PRIMARY
Outstanding visibility, optimal driving position, and intuitive controls help keep you safe from the moment you enter your vehicle.

PREVENTIVE
Advanced safety technologies such as EyeSight*1 helps avoid collisions before they happen.

ACTIVE
Automatic Anti-dazzle Rear View Mirror*4
Helps improve comfort and safety during nighttime driving by preventing glare from cars behind you.

ACTIVE
Hazard Avoidance
The low centre of gravity design, enhanced suspension system, and rigidity improvements provide a vehicle that responds immediately to driver input, helping avoid hazards on the road.

ACTIVE
Core technologies like Symmetrical AWD and Subaru Global Platform allow precise control of the basic elements of driving—driving, turning, and braking.

PASSIVE
Designed to keep you safe in the event of a collision with features such as the cabin-protecting engine layout and SRS*2 airbags.

PREVENTIVE
Steering Responsive Headlights (SRH)
See better around corners in the dark for safer nighttime driving. These headlights turn with steering input to aim your lights in the direction your vehicle is turning.

PREVENTIVE
Subaru Rear Vehicle Detection (SRVD)*5
Sensors in the rear corners alert you of vehicles in your rear blind spots for safer lane changes and warns you of potential collision danger while driving in reverse.

PASSIVE
Ring-shaped Reinforcement Frame
Protects the cabin area with structurally redesigned high-tensile steel panels for better collision impact energy absorption from all directions.

PASSIVE
Supplemental Restraint System (SRS)*2 Airbags
Front SRS*2 airbags, front side SRS*2 airbags, curtain SRS*2 airbags, and a knee SRS*2 airbag come standard on the Forester to give all passengers a higher level of protection in the event of a collision.

PREVENTIVE
High Beam Assist (HBA)*4*5
Increases visibility and safety when driving at night by toggling the high beams on and off automatically, depending on driving conditions.

PREVENTIVE
Reverse Automatic Braking (RAB)*4*5
Four sensors on the rear bumper detect obstructions behind the vehicle when reversing. If detected, the system can alert the driver with warning sounds and automatically apply the brakes to avoid a collision or reduce collision damage.

PASSIVE
Cabin-protecting Layout
The reinforced pillars and frame all work together within the Forester’s Subaru Global Platform design to absorb collision impact from all sides to protect all passengers. In the event of a frontal collision, the engine and gearbox are designed to be pushed below the vehicle instead of crashing into the cabin.

*1 EyeSight is a driving support system which may not operate optimally under all driving conditions. The driver is always responsible for safe and attentive driving and observance of traffic regulations. System effectiveness depends on many factors such as vehicle maintenance, weather, and road conditions. See Owner’s Manual for complete details on system operation and limitations for EyeSight, including functions in this brochure.
*2 Effective when used in conjunction with seatbelts.
*3 The European New Car Assessment Programme: independent crash test & safety organisation backed by several European governments, motoring & consumer clubs.
*4 Optional.
*5 The driver is always responsible for safe and attentive driving and observance of traffic regulations. Please do not depend solely on these safety features for safe driving. There are limitations to the features of this system. See Owner’s Manual for complete details on system operation and limitations. Please ask your retailer for more details.

Subaru EyeSight Driver Assist Technology

Completely re-engineered with a host of new and advanced functions, EyeSight*¹ provides drivers with even more peace of mind on the road. Updates to both image recognition and control software, plus hardware improvements like windshield integration, enable even more confident and safer driving in many real-world driving situations.

Pre-Collision Braking System*²

A new stereo camera with a wider angle of view and improved image recognition and control software helps avoid collisions at intersections.

Autonomous Emergency Steering

When Pre-Collision Braking Assist isn't enough, Autonomous Emergency Steering uses the stereo camera and rear radar to detect lane markings to judge if there is enough space to safely avoid a collision with an the object ahead. If judged safe, it helps avoid a collision with automatic steering support.

Emergency Lane Keep Assist

If the system senses adjacent, following, or oncoming vehicles while lane departure is detected, a buzzer warning sounds, a warning screen is displayed to alert the driver, and steering operation is assisted regardless of turn signal operation.

Lane Centring Control and Preceding Vehicle Adaptive Steering Control

Reduces driver fatigue and stress by recognising lane markings and the vehicle ahead to assist with steering wheel operation and help stay in the centre of the road.

Lane Departure Prevention

Makes long drives stress-free by helping you stay in your lane. By recognising lane markings, and assisting with steering wheel operation, it can help keep your vehicle in the lane. Helps prevent unintended road departure, even on roads without lane markings. By recognising boundaries outside the road such as grass, it can assist with steering operation to keep your vehicle in the lane.

Pre-Collision Throttle Management

When there is an object in front and you put the gear in Drive instead of Reverse, the system can alert you with a buzzer and flashing indicator and cuts engine power to minimise possible frontal impact force and damage.

For illustration purposes only. Not actual measurements.

*¹ EyeSight is a driving support system which may not operate optimally under all driving conditions. The driver is always responsible for safe and attentive driving and observance of traffic regulations. System effectiveness depends on many factors such as vehicle maintenance, weather, and road conditions. See Owner's Manual for complete details on system operation and limitations for EyeSight including functions in this brochure.

*² Pre-Collision Braking System may not work in all situations. Depending on the speed difference from objects, the object's height, and other conditions, every situation may not meet the necessary conditions for EyeSight to work optimally.

SUBARU e-BOXER

SUBARU'S ADVANCED POWER UNIT SYSTEM

SUBARU e-BOXER combines the dedicated 2.0-litre direct-injection SUBARU BOXER engine with an electric motor and adjusts the power-split ratio depending on driving conditions for quiet, smooth, efficient, and powerful driving. What's more, it's longitudinal layout along the vehicle's centreline complements the low centre of gravity engine and inherently well-balanced Symmetrical AWD for better front/rear vehicle weight distribution and improved driving stability.

SUBARU BOXER Engine

Max Output: 110 kW (150 PS) / 5,600 - 6,000 rpm
Max Torque: 194 Nm (19.8 kgfm) / 4,000 rpm

Motor

Max Output: 12.3 kW (16.7 PS)
Max Torque: 66 Nm (6.7 kgfm)

Personalised comfort for any driver.

Driver Monitoring System*

Driver Monitoring System* is a state-of-the-art safety support system that utilises a dedicated camera and facial recognition software to monitor fatigue or lack of attention. It recognises up to five pre-registered drivers to provide customised driver settings for a comfortable, convenient, and personalised driving experience.

Alert

Driver Monitoring System alerts the driver via audio and visual warnings if it determines the driver is distracted or drowsy.

Driver Setting Auto Adjustment

Regardless of age or body type, Driver Monitoring System automatically adjusts the seat position, door mirrors, and air conditioning to the driver's pre-registered settings.

* Optional.
The driver is always responsible for safe and attentive driving and observance of traffic regulations. Please do not depend solely on the Driver Monitoring System for safe driving.
There are limitations to the features of the Driver Monitoring System. See Owner's Manual for complete details on system operation and limitations. Please ask your retailer for more details.

LINEUP

FEATURES

- 01 LED Headlamps**

Be seen during the day and see well at night. Auto-levelling, bifunctional, and steering responsive, the stylish LED headlamps flow out from the hexagonal grille to display the vehicle's stylish and solid body.
- 02 18-inch Aluminium-alloy Wheels***

The robustly styled multi-spoke 18-inch aluminium-alloy wheels are paired with 225/55R18 tyres.
- 03 LED Fog Lamps**

See better at night or in poor weather. The round LED fog lamps are placed high for a large light coverage area and displays the vehicle's capability and functionality.
- 04 Front Grille**

Bold and stylish, the expanded hexagonal grille gives off a powerful and wide stance as the headlamps and fog lamps dynamically flow out of the corners.
- 05 Roof Rails**

Conveniently access the roof rails with the rear side sill steps. Use the rope holes to securely tie down your baggage or equipment.
- 06 Dual Air-conditioning System**

The passenger-synced air-conditioning system efficiently provides a pleasant indoor cabin atmosphere to every occupied seat. Choose from four operation modes to adjust to anyone's temperature preference. For further convenience, you can also select your mode via the 6.3-inch Multifunction Display.
- 07 USB Power Outlets (Front and Rear)**

USB charging ports are available for both front and rear seat passengers, increasing convenience for everyone.
- 08 Divided Seatback Pockets**

Conveniently keep your magazines, smartphones, and tablets organised with the divided seatback pockets.
- 09 Seat Position Memory Switch***

The seat memory function is linked to the position of the door mirrors for improved comfort and convenience. Plus, the passenger-side door mirror automatically tilts down when you shift into Reverse for better kerb visibility when backing up.
- 10 Rear Ventilation System**

Vent grilles have been installed behind the centre console box so rear passengers can travel in comfort.

* Optional.
